

# MELARBIT PARTNERS

*UNLEASH THE POSSIBILITIES. FUNDRAISING AND BEYOND.*

## COMMUNITY INVESTING AND THE COMMUNITY INVESTING NETWORK OF NJ

Traditionally defined, community investing puts money at risk or on deposit with the expectation of repayment with a financial return, for the purpose of helping low/moderate and under-served people and places. Some of the more common activities that community investors fund are: job creation; business start-up and growth; safe and affordable housing; community facilities; charter schools; community wealth creation.

Melarbit builds upon this tradition to expand civic participation, stimulate new sources of funding/investments to build strong, healthy and vital local communities.

Our signature initiative is The Community Investing Network of NJ (the Network), which connects individual investors with investment opportunities in local New Jersey communities which make money and have an impact. It is designed for individuals and professionals directly involved in investment decision-making who are exploring new ways to align assets and mission. Areas of focus include urban revitalization, small business development/entrepreneurship and impact investing. Also for those who love discovering new neighborhoods and amazing food!

Founded by Melarbit Partners, Inc. the Network is a unique opportunity to connect with like minded investors, leaders and change makers.

The Network is part of the Meetup platform, the world's largest network of local groups. Meetup's mission is to revitalize local community and help people around the world self-organize. Meetup is a free platform. There is no cost to join the Community Investing Network. To learn about past and future Community Investing Network of NJ Meetups [click here](#).
